## IS TSA FOR YOU?

Ask yourself these questions to find out!

- ▶ Do you enjoy doing activities and learning about things such as computers, web design, architecture, or computer programming?
- ▶ Do you like to be with people who enjoy the same activities as you?
- ▶ Are you willing to commit to a team, help define the team's goals and be part of an effort to achieve them?
- ▶ Do you like to have fun and meet people?

If you answer yes to the above, then take the next step and find out more about TSA. Here are some ways to do that:

- ▶ Talk to the TSA advisor at your school to see how the chapter is run – find out how often they meet, what activities/events they plan to do this year, etc.
- ▶ Attend a meeting to see if there is a good fit for you.
- ▶ Ask current members what they like best about TSA.
- ▶ Visit the National TSA website at [www.tsaweb.org](http://www.tsaweb.org) or your state's TSA website.
